Key Features

1. User Authentication
2. Profile Management
3. Matching and Like/Pass
4. Messaging
5. Browse and Search/Filter

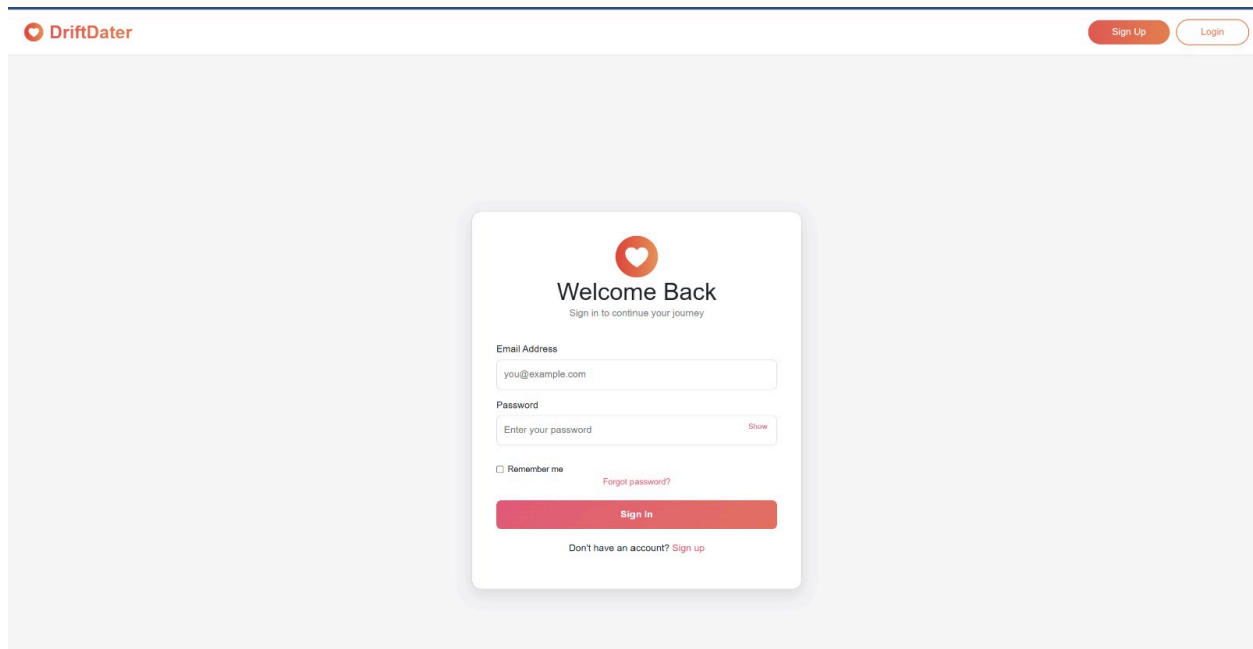

Feature 1 - User Authentication

This feature allows for a user to signup and login to DriftDater. This allows for user sessions and the system to track user activity.

The details of this feature are as follows:

- ✓ User registration with unique email validation
- ✓ Secure login / logout with Flask sessions
- ✓ Password hashing using bcrypt

LOGIN PAGE

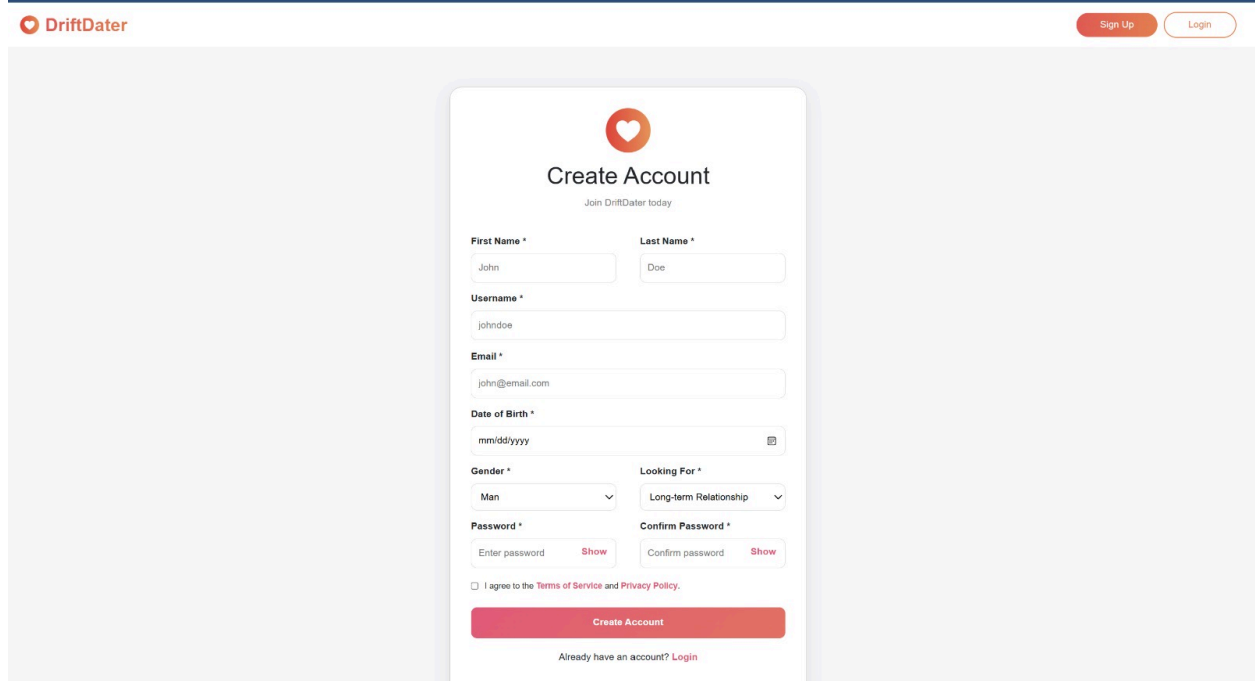

The screenshot shows the DriftDater login page. At the top left is the DriftDater logo. At the top right are two buttons: "Sign Up" and "Login". The main content area features a white login card with a heart icon and the text "Welcome Back" and "Sign in to continue your journey". Below this are input fields for "Email Address" (containing "you@example.com") and "Password" (containing "Enter your password" and a "Show" link). There is a "Remember me" checkbox and a "Forgot password?" link. A red "Sign In" button is at the bottom of the card, with a link "Don't have an account? Sign up" below it.

1. Enter your email and password
2. Click Submit

SIGNUP PAGE

The screenshot shows the DriftDater website's signup page. At the top left is the DriftDater logo, and at the top right are 'Sign Up' and 'Login' buttons. The main content is a 'Create Account' form with a heart icon and the text 'Join DriftDater today'. The form fields include: First Name (John), Last Name (Doe), Username (johndoe), Email (john@email.com), Date of Birth (mm/dd/yyyy), Gender (Man), Looking For (Long-term Relationship), Password (Enter password), and Confirm Password (Confirm password). Each password field has a 'Show' button. Below the form is a checkbox for 'I agree to the Terms of Service and Privacy Policy.' and a 'Create Account' button. At the bottom, it says 'Already have an account? Login'.

Feature 3 - Matching and Like/Pass

This feature allows for a user match with other users on the profile by a like/pass feature. The features work together along with user personal preferences to detect potential matches and additionally by mutual liking to confirm the match.

The details of this feature are as follows:

- ✓ Match scoring algorithm (location, age range, shared interests, gender preference)
- ✓ Display matched profiles on dashboard
- ✓ Like / Pass functionality
- ✓ Mutual match detection and confirmation
- ✓ Match count display
- ✓ Browse mode with filtering options

MATCHES

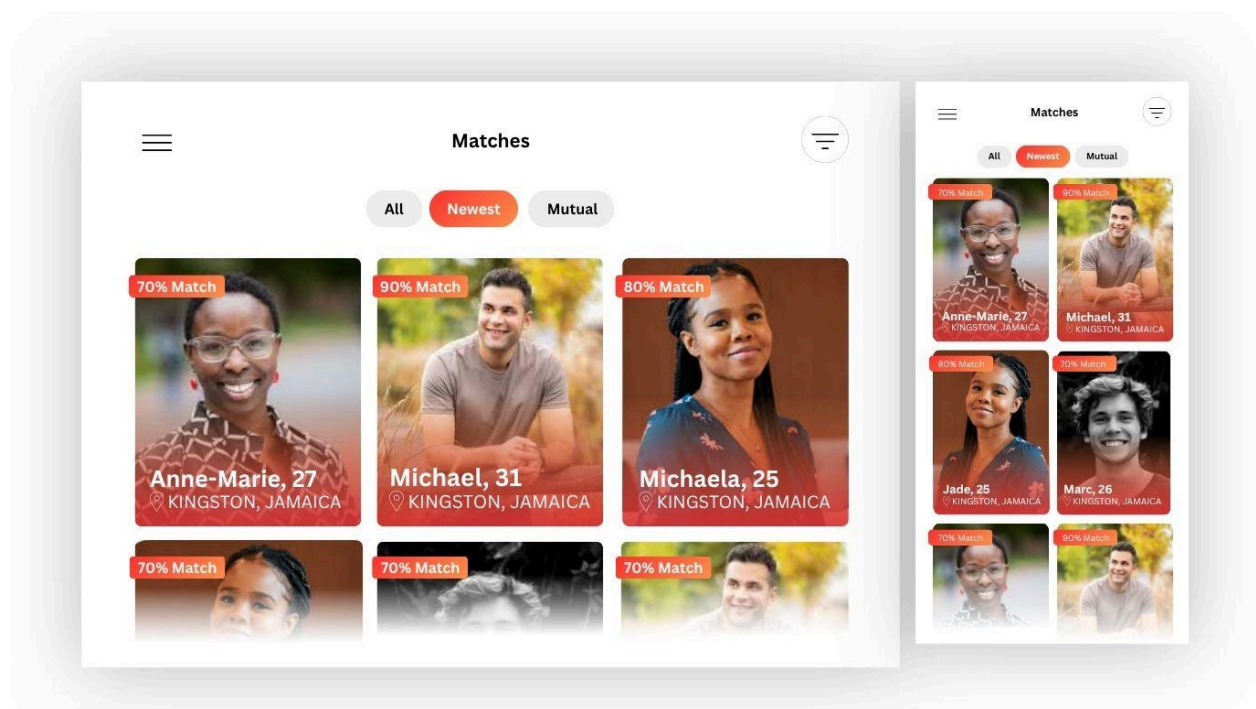

Figure 3. Matches Pages

1. Set your preferences
2. Like or Pass a profile
3. According to mutual liking, profile data and set preferences matches should appear on screen

Feature 4 - Messaging

This feature allows for a user to message other users they have confirmed a match with.

The details of this feature are as follows:

- ✓ Simple messaging between mutually matched users only
- ✓ Conversation list view
